

A Better City Sustainability Network for businesses & institutions

As part of our Sustainability & Climate Change Initiative, A Better City has launched the *Sustainability Network for businesses & institutions*. The network will bring together individuals working in the many areas of sustainability, including facilities, energy management, corporate social responsibility, property management, purchasing, transportation, and others with an interest in incorporating sustainable practices to reduce their organizations carbon footprint.

The *Sustainability Network for businesses & institutions* will meet bi-monthly starting in June to discuss a wide range of topics, share experiences, learn about best practices, and network with other professionals in the field.

ABC is requesting that each member designate at least one employee (you may designate more than one) to represent your organization on the network. Please fill out the form below to let us know who your representative will be.

Name: _____ Title: _____
Company: _____
Address: _____
City: _____ State: _____ Zip: _____
Phone: _____ Email: _____

To assist us in determining topics of most interest to our members, please check off your areas of Interest:
