- Merck
- Pfizer
- Shire

Other

- Boston Convention and Exhibition Center
- Hynes Auditorium

Restaurant/Retail

- Whole Foods
- Dancing Deer Bakery
- Baker's Best
- Intercontinental Hotel
- Westin Copley Hotel

Educational Institutions

- Boston College
- Boston University
- Harvard University
- MIT
- Tufts University

Government

- City of Cambridge
- Department of Conservation and Recreation
- Massachusetts Convention Center Authority
- Mass. Department of Public Health
- Mass Department of Environmental Protection

- Largest Locally Owned Boston based recycler
- Full service one stop shop Discards and Recycling
- Save That Stuff's core business is recycling
- Measure progress
- Strategic long term partner

Recycling

All Paper

Comingled Containers

Food Waste

Mixed Recyclables/Single Stream

Equipment

Baled Cardboard

Used Vegetable Oil

Other Materials

- Metal
- Furniture and clean outs
- Pallets
- Composting organics
 10 15% of the waste
 stream
- Baled OR plastics
- Baled blue wrap program

Discards

- Compactors
- Dumpsters
- Carts

Education Services

- Training
- Planning services
- Waste reduction information resources
- Waste diversion reporting and benefits
- Earth day and other special events

Agenda for Today

- 1. Save That Stuff Background
- 2. Resource Management
- 3. Metrics and Reporting
- 4. Why companies partnering with us?

Resource Management (RM)

- Incentivize service contractor to increase diversion, reduce waste, and lower costs.
- Economic value of contract is on service, not volume
- Look at entire material management supply chain
- Transparent billing
- One contractor instead of having to manage many

RM contracts align contractor and customer incentives and benefits

Traditional Disposal Contracts Conflicting Incentives

Why Recycle? • Why Recycle With STS? • What Do We Recycle? • Who Saves Stuff? • How Do We Start?

Save That Stuff. We'll take it.

For centuries trees have been turned into pulp that turns into paper that turns into all kinds of serious, funny, intellectual, crazy, functional, sturdy, beautiful "stuff." Eventually, most of this "stuff" - no matter how important it once was - gets filed, archived, forgotten, tossed out and ultimately wasted. But as you surely know, there are zillion of good and truly amazing uses for recycled office paper and other recoverable scrap materials.

What you may not know is exactly how valuable this material can be and how easily that value can be realized. Save That Stuff is a leading waste management company that helps over a thousand New England businesses and institutions safely and efficiently get rid of paper recyclables and other recoverable scrap materials otherwise destined for the dumpster. And we do it while saving our customers a lot of precious time and money.

Call Save That Stuff today at 617.241.9998 for a free audit of your existing waste removal and recycling system.
